“Companies with whistleblowing systems, that include the possibility of anonymous reporting, suffer smaller losses from fraud.” ACFE Report to the Nations on Occupational Fraud and Abuse

“Whistleblowing is the most effective tool for fighting corruption.” Transparency International, Sweden

... That’s why users in more than 150 countries trust the WhistleB whistleblowing system, with state-of-the-art security. WhistleB’s customer base consists of companies, authorities, and financial institutions of all sizes, from 30-300 000 employees, that want to increase transparency and foster ethical behavior.

Challenges

Things don’t always go as they should in an organisation. Corruption, fraud, environmental malpractice, harassment or discrimination can be happening anywhere. And the last thing you want is to find out about it via media or social media.

Ideal Solution

Your stakeholders need secure, trusted tools to sound the alarm – quickly, simply and anonymously. And your organisation’s board and management need tools and a structure to be able to respond efficiently, appropriately and according to law.

Desired Outcomes

Employees and other stakeholders feel confident to blow the whistle. You prevent misconduct before it occurs through the early warnings received. You prevent reputational and financial risks and protect people, and you follow up on your Code of Conduct.

WhistleB

Whistleblowing made
trustworthy, easy and secure

Easy to report, respond & manage

Whistleblowers can access the simple, digital communication channel 24/7, in any language, from a range of devices, anywhere. Managers receive notifications and respond via an intuitive case management tool, which allows secure handling of cases according to local legislation.

Dynamic; right for your organisation

Our service platform is highly scalable, so you choose languages, level of support, add-on services, reporting and more, and change them as needed. The system is also fully compliant with the national laws where you operate, for example the EU GDPR.

Top security for anonymity & trust

The system is compliant with the strictest data protection laws. WhistleB partners with Microsoft Azure to provide best-in-class IT services that protect sensitive data and safeguard the whistleblower's anonymity, including regular security & vulnerability testing.

WhistleB whistleblowing system + Microsoft Azure = Trust

The success of the WhistleB system is based on trust. An employee reporting misconduct needs to be confident that they are, and can remain, anonymous. The company itself needs to protect sensitive data. With Microsoft Azure and WhistleB's secure application development the service safeguards the anonymity of the whistleblower as well as sensitive data.

Best-in-class security

The system is delivered through Microsoft Azure data centers, each designed to run 24/7/365, using state-of-the-art security solutions. Your data is secured via encryption and accessed by authorised users only.

Compliance

WhistleB has chosen Microsoft Azure for its hosting and development platform as it has the most comprehensive set of compliance offerings of any cloud service provider, including ISO 27001, ISO 27018 and EU GDPR.

Future proof

The WhistleB system is used in 150+ markets and is continually developed based on customer needs. The design of the Microsoft Azure platform allows this high scalability and flexibility, offering you a future-proof service

Customer example:

GROUPE RENAULT

“WhistleB has been flexible, creative and responsive.”

Customer challenge

“Groupe Renault wants to make available a secure and easy-to-use alert system available to all employees worldwide and to protect whistleblowers.

Groupe Renault has to comply with a new set of laws in France (anti-corruption and duty of vigilance laws) that requires the implementation of an a new alert system.”

Why WhistleB?

“Our main criteria to select our provider were the compliance with our security requirements and local legal requirements, the ease-of-use of the system and the European experience.”

How we helped

“WhistleB has been flexible, creative and responsive.”
